Weller Fume Extraction

WFE2P

WFE20

TOOLS THAT WORK AS HARD AS YOU.

The WFE2P fume extractor is a bench-top filtration unit that reduces harmful soldering emissions by extracting 99.99 percent of the fumes before they can be released into the environment. Other available fume extraction units accommodate up to 20 users.

- Efficient four-stage, replaceable filter system
- Silent-running, maintenance-free pump
- For use with FE Series soldering irons
