

80A Mini AC/DC Clamp Meter

Small diameter elongated jaw

Designed for high resolution current measurements in hard to reach locations. This mini-clamp performs AC and DC low current tests where typical clamps cannot go.

Features:

- 4000 count LCD display
- 4A range with 1mA resolution for accurate low current measurements
- Jaw opens to 0.5" (12.7mm)
- AC/DC Voltage, Resistance, Frequency, Capacitance, and Duty Cycle
- Diode Test/Continuity Beeper
- Data Hold and Max Hold
- Complete with test leads, 9V battery, and carrying case

Mini size jaw conveniently reaches into narrow spaces for taking current measurements where typical clamp size meters cannot go.
