# >> Technical Data

## Sensitivity (R134a)

3 g/a

## Response time (R134a)

< 1 s

## Detectable refrigerants

|         |                                                                                |
|---------|--------------------------------------------------------------------------------|
| FCKW:   | R11, R12, R500, R503                                                           |
| HFCKW:  | R22, R123, R124, R502                                                          |
| HFKW:   | R134a, R404a, R410a, R407C, R32                                                |
| Others: | R290, R600a, R1234YF,<br>Forming Gas (95% N <sub>2</sub> + 5% H <sub>2</sub> ) |

## Sensor

|               |                        |
|---------------|------------------------|
| Zeroing:      | Automatic or manual    |
| Service life: | ≥ year (in normal use) |

## Power supply

3 AA cells (alkaline)

# Basic Set

## Delivery contents

Wöhler RL 200 Refrigerant Leak Detector

Gooseneck 17.3"

Batteries

Plastic case

Item no.

● = included

Wöhler RL 200  
Refrigerant Leak Detector

- 
- 
- 
- 

11361

Precise detection of all common refrigerants.

## Advantages

- ▶ Precise and reliable detection of the smallest leaks due to high sensitivity (3 g/a)
- ▶ Meets the requirements of the F-Gas Regulation and DIN EN 14624:2012
- ▶ Easy to use due to digital display and automatic zero value setting
