

True Pipe Wrench Innovation

RAPIDGRIP™

Whether aluminum or heavy duty ductile iron, the RAPIDGRIP pipe wrench provides the speed, performance and reliability contractors need to complete jobs faster.

A unique spring-loaded jaw delivers one-handed operation and fast ratcheting action. The unique combination heel/hook jaw teeth design aggressively bites the workpiece for sure grip: the greater the handle force the stronger the grip! A thumb trigger aids setup and removal from the workpiece.

Now available in 35% lighter aluminum, the RAPIDGRIP is the first true pipe wrench innovation in 80 years. Only from RIDGID, the RAPIDGRIP is the professional's choice and assures "you'll have the right wrench for the right job"!

Benefits

- Positive Pipe Grip
- Self Adjusting And Fast Ratcheting Action
- Easy Set Up
- Lightweight

Easy Engagement

Rapid Ratchet Action

Easy Release
