

## EB11 'EasyBatch' CONTROLLER

The FLOMEC EB11 "EasyBatch" is a dual stage batch controller designed to create an efficient and accurate dispensing experience. Mountable either directly onto a FLOMEC® flow meter or remotely, and compatible with multiple types of industry signals, the EB11 allows the user to control the volume of fluid dispensed into their process, while the large 7-digit display with back light enables easy reading of the batch status in either light or dark conditions. Housed in an IP66/67-NEMA4X rated Glass Reinforced Nylon enclosure for increased impact and corrosion resistance, particularly in washdown environments. The EB11 contains 2 digital NPN outputs with a current rating of up to 300mA for direct control of solenoid valves, or to connect to relays to allow for the control of large valves and pumps.

## FEATURES

- Easy to use 2 button controller
- Weather resistant and durable IP66/67 - NEMA4X enclosure
- Easy to read backlit 7-digit display
- Retained settings after power loss
