

# High-Leverage Kevlar® Snip

This High-Leverage Snip cuts Kevlar®, cordage, fabric and wire. It's spring loaded for less effort. One of the blades is serrated for non-slip cutting.

## Specifications

|                   |                                             |                 |                                         |
