

2410PL StealthLite™

Same features as the StealthLite™ 2410 LED Flashlight, but outfitted with a lens ring that emits a bright glow in the dark. The new generation photoluminescent material in the plastic absorbs the energy from any light source - fluorescent lights, the sun, or even the flashlight's own beam. No more fumbling in the dark for your flashlight. It is powered by 4 AA alkaline cells (included), submersible, and has an ELX body which resists chemicals, corrosion, and extreme temperatures.

- As bright as a Xenon light with the battery life of an LED
- Built Pelican tough
- Glow-in-the-dark shroud
- Super bright LED beam
- Unconditional Lifetime Guarantee of Excellence
- **NOW WITH NEW UPGRADED SPECS**
- Waterproof
