FLIP-BLADE PRECISION INSULATED SCREWDRIVER

Klein Tools' Insulated Electronic Screwdrivers include an insulated handle and interchangeable insulated blades for quick changes on the job. The sliding collar, auto-eject mechanism allows you to change or flip blades simply and easily. The thick, bright orange outer coating is flame and impact resistant to protect from electric shock. Klein insulated tools exceed the ASTM F1505 and IEC 60900 standards for insulated tools, and are clearly marked with the official 1000-volt rating symbol. These drivers are the perfect go-to in your tool bag.

Meets or exceeds ASTM F1505-16 standard
for insulated tools 1000V rated when used
with the included insulated handle

Rotating end cap
for improved control

**Layer of orange impact and
flame-resistant insulation**
protects from energized sources

**Heat treated precision
machined tips for greater strength**

Cushion-Grip™
handle allows for
greater torque and comfort

High retention lock collar
to securely hold and quickly release blades
