

INSTRUCTIONS – GLOW FISH TAPE

50550

ENGLISH

SAVE ALL INSTRUCTIONS AND PRODUCT PACKAGING FOR FUTURE REFERENCE.

To remove tape from housing and use as fish rod with attachments*:

1. Disengage the connector by popping out from the fish tape anchor cavity (FIG. 1).
2. Pull tape from the housing through housing channel (FIG. 2).

To reinstall tape into housing:

1. Align handle slot with case mark, prepare to insert connector (FIG. 3).
2. Feed connector straight through channel until flush with anchor cavity (FIG. 4).
3. Fully align connector with anchor pocket, push connector to seat into anchor cavity (FIG. 5).

** Fits Klein Tools fish rod attachments with 8-32 thread, such as Cat. No. 56511.*
