CARBON FIBER HARD HATS

Klein Tools **K12™ Series Carbon Fiber Hard Hats** are constructed using multi-layered interlinked carbon fiber, giving these full brim hard hats an outstanding low-weight to high-strength combination. The carbon fiber construction also provides consistent impact protection across a wide temperature range in extreme cold or heat. All three models feature large adjustable vents not found on other carbon fiber hard hats, to help stay cool. A balanced 6-point suspension with removable, washable padded sweatband and top pad is designed for a secure fit and long-term comfort. Select K12 Series hard hats include Klein Tools' accessory mounts on the front and back for attaching Klein headlamps, fans, and other accessories – no strap needed!

Sweat-wicking sweatband and top pad with advanced evaporative technology is machine washable

Six-point Suspension for enhanced stability and balance

Accessory Mounts (front & back) for attaching Klein accessories (60512, 60514)

Open-frame design, with soft neck pad pivots for optimal fit and improved ventilation

SPARTAN 60513
(no mounts)

ANSI LT and HT standards:
-22°F to 140°F

3K TRUE CARBON FIBER

TITAN 60512
