THE MOST POWERFUL RIDGID® VAC EVER

24% greater than
our previous best.

■ **STABLE**

Low center of gravity provides
stability.

■ **EASY TO EMPTY**

Filter stays in drum when
emptying, allowing for easier,
cleaner debris disposal. Drum
detaches from the power sled/cart with quick-slide lock lever.

■ **HANDS-FREE**

Foot-activated power switch allows for easy access
and hands-free operation.

SMART PULSE™ VAC

- 1 Airstream puffs into filter.**
- 2 Filters alternate pulsing.**
- 3 Vacuum stream continues uninterrupted.**

The Smart Pulse™ vac is designed with two filters and an integrated sensor. The sensor is continuously monitoring suction efficiency. When a pressure difference inside the vac vs. the outside of the filter is recognized by the sensor, the vac begins an alternating pulsing cycle, back-flushing air through the filter. This process cleans the filter automatically, yet only when needed, providing uninterrupted performance and maximizing efficiency.

RIDGID® Professional-Industrial Vacs Provide:
