

Replacement Test Leads Straight Inputs

The Klein Tools Test Lead set is part of a full line of Klein Tools meters and testers, designed by electricians for electricians. They feature removable alligator clips that attach to wires and other conductors. Designed for use with Klein Tools CL110, CL210, CL310, CL600, CL700, and CL800. The leads perform accurately with Klein Tools' meters and other brands.
