LED-lighted, Telescoping Inspection Mirrors

Ideal for toolmakers, machinists, inspectors and mechanics

Features & Benefits:

- 2 Extra bright LED lights facilitate the inspection of hard-to-see and hard-to-reach areas
- Easily peer into the dark crevices of your work space in search of leaks, breaks or lost tools
- Telescoping shaft extends to 33 in. (840mm)
- Fully polished, shatter-resistant glass mirror sits on a 360° swivel, double ball joint for accurate positioning and infinite angle adjustments
- Non-slip cushion grip
- CE Approved

Specifications:

Telescoping Shaft: 12 to 33 in. (205 to 840mm)
