

ET Series
Electrical Testers

Rugged and affordable receptacle testers with convenient features like ergonomic pull bar and legend on both sides. These testers stand out due to their reliability, ease of use, and affordability. They are especially designed for detecting various wiring faults in electrical outlets. The ET11 comes with the ability to confirm the operation of GFCI circuits.

ET Series Features

- Test for correct wiring of 3-wire receptacles in 110 V AC to 125 V AC, 50/60 Hz circuits
- Detects 5 wiring faults: Correct, Open Ground, Open Neutral, Open Hot, Hot/Ground Reverse, and Hot/Neutral Reverse
- Conveniently verify both ‘ground bottom’ and ‘ground top’ style sockets with test code light legend on both sides
- Works on GFCI outlets and confirms operation of the ground fault protective device (ET11 only)
- Ergonomic pull bar design for easy removal
