

# Mark II Wind Speed Indicator

Includes ABS plastic vane,  
50' tubing, mounting  
hardware and gage fluid.

Perfect for your living room, den, workshop or office. Instruments are accurate, low-cost and practical. Standard model indicates wind speed directly on liquid filled scale reading in both Miles per Hour (0 to 80) and Beaufort scale (1 to 12). Also available is metric model, same as above but reading 0 to 130 kilometers per hour. To order, specify Mk II Wind Speed Indicator, MPH or Mk II Wind Speed Indicator, KPH.

**Mark II WSI, mph scale**

**Mark II WSI Metric, kph scale**

**Note:** Standard discounts do not apply to the Wind Speed Indicator. Sporting goods dealers and distributors: Contact factory for quantity discounts.
