

Pro40™ TRUE-RMS DIGITAL MULTIMETER

Pro40™ Features

- Measure a Wide Range of Voltages, Resistances and Currents
- Troubleshoot Irrigation, Low Voltage Lighting and Other Electrical Systems
- Check for Live 120 Vac Lines Without Touching
- Built-in Flashlight

PRODUCT DESCRIPTION

The Pro40™ Digital Multimeter Irrigation tester is a premium tool for maintaining electrical systems whether low-voltage irrigation and lighting, or main AC power wiring. Fully industry specified and safety rated the Pro40™ has internal fuses for easy maintenance if it is mis-connected. Not only does it make most any electrical measurement you might need, but it has a “sniffer” non-contact voltage (NCV) detector built in. An LED flashlight rounds out the practical features of the Pro40™.

PRODUCT FEATURES

- Auto-ranging Volt-Ohms-Amps Meter
- True-RMS Accuracy
- Measures up to 600 volts, 10 amperes and 60 Megohms
- Rugged Protective Jacket
- Large backlighted LCD Display
- LED Flashlight
- Detachable Premium Cord Set for Field Flexibility
- Full IEC 61010 and CE Safety Tested to Cat III 600 Volts
- Bonus Measurement of Capacitance, Frequency, Duty Cycle and Diode Function

SPECIFICATIONS

Weight:	Less than 1 lb.
Current:	10 amps AC/DC
Voltage:	600 VAC / 600 VDC
Resistance:	0-60 megohms
Power Source	Uses two (2) AAA batteries (not included)
