

Precision Flow Saddles: Truflo Expertise

Truflo fittings are expertly made to provide accurate flow measurement and the right depth of sensor insertion. Icon offers a variety of robust saddles, including branch, clamp-on, strap-on, and glue-on versions in a range of sizes, manufactured by Icon Process Controls. Because the saddles are strong and lightweight, they can easily accommodate metal and plastic piping systems. These saddle fittings are simple to install and are designed for Schedule 40 or 80 piping.

Features

- ✓ Sch 40 & 80 Pipe Sizes
- ✓ Will Accept Signet® Type Flow Meter
- ✓ Easy to Install
- ✓ Excellent Chemical Resistance

Model Selection

Pipe Size	Part Number
