

Punchdown Multi-Tool with 110/66 Blade & WorkEnds Kit

This Punchdown Multi-Tool features a precision ground 110/66 combination blade to terminate and cut wire in one convenient step. The selectable Hi/Low impact force setting adjusts the compression force as needed. An integrated hook and spudger quickly manipulates wire and small components. Easily convert this tool into a multi-bit driver using the WorkEnds kit which includes an adapter, reach extension and four driver bits (#1/#2 Phillips and 3/16" and 1/4" slotted).
